

Download Landing A Law Enforcement Job

Working with professional law enforcement women. ICE Homeland Security Investigations (HSI) Special Agent Allison Carter Anderson shares her experiences working with other female law enforcement professionals. This new, unique program allows students to get an insider's look into the career of law enforcement. CLC students get in the drivers seat of new state-of-the-art squad cars, which come with the same software that officers use on the streets today. Benefit the Badge. Our partner and major contributor. Benefit the Badge is a multi-sports tournament series to support law enforcement, honoring wounded and fallen officers nationwide by hosting them in Branson for National Law Enforcement Recognition Week in June. Career Description: Students in the Natural Resources Law Enforcement Program learn skills that lead to becoming a conservation officer. Conservation officers work with fish and wildlife agencies, state parks, trails, forests, waters and wetlands, as well as work in educational activities within and throughout Minnesota.
